- 24X7 Real-time Surveillance
- Higher Security with Intelligent Video Analytics

## PROJECT HIGHLIGHTS

- 350+ Cameras at 13 Locations
- Centralized Viewing from Single Location
- 5 Years of Service Support Warranty

## COMPANY PROFILE

A Manufacturing giant in Maharashtra has the distinct mark of making India's first Diesel Engine and Iron Mold Ploughs. The company's legacy dates to 1922. This company is the reason behind a new wave of industrialization in some of the towns in Maharashtra while preserving their rich heritage.

## CHALLENGES

**Large Area to Monitor** - The company is spread across a wide area employing more than three thousand people. Being an established and trusted brand, maintaining quality is crucial and therefore, every area needs to be under surveillance. For this reason cameras producing good quality image and can cover a greater area for monitoring was the requirement.

**Centralized Control** - The company is divided into various branches which are located at various places in Satara. This gave rise to the need for a centralized solution at a centralized location from where all other sites can be monitored at a time.

## MATRIX OFFERINGS

To cover the large monitoring area, Matrix provided IP Bullet and Dome Cameras that have greater Field of View when compared to other brands. According to the requirement, various cameras were installed at different locations such as reception area, canteen, security area, entrance, production area, etc. These cameras also provide exceptional low light images which aid in providing high-class security.

For storing the streamed videos, Matrix offered Network Video Recorders. These NVRs have features such as Adaptive Recording which aid in storing more data in a defined space. Moreover, it has Intelligent Video Analytics such as Intrusion Detection and Motion Detection which were also applied. Instant notifications and alerts ensured real-time security of the premises.

## ABOUT MATRIX

Established in 1991, Matrix is a leader in Security and Telecom solutions for modern businesses and enterprises. As an innovative, technology-driven and customer-focused organization, the company is committed to keeping pace with the revolutions in the Security and Telecom industries.
